

N Bharath Chowdary

AI/ML Engineer || App Developer

+91 9353146515 || Yadgir, Karnataka || bharath.n18189@gmail.com

[LinkedIn](#) | [LeetCode](#) | [Portfolio](#)

Passionate and results-driven AI/ML Engineer and App Developer with hands-on experience in Computer Vision, Deep Learning, and Full-Stack Development. Proven track record of building practical solutions like face recognition assistants, cancer detection models, and productivity apps. Skilled in Python, Java, Web Development, and Databases, with strong problem-solving abilities and a strategic mindset. Adept at collaborating in teams, managing time effectively, and committed to continuous learning and delivering high-impact solutions.

Skills: - Python || C, C++ || Java || MySQL || HTML, CSS, JS
Tech Stack: - Artificial Intelligence || Machine Learning || Image Processing || App / Web Development || DBMS
Soft Skills: - Communication || Time Management || Problem Solver || Strategic Thinker || Team Management
Tools: - Git || VS Code || PyCharm || Postman || Streamlit || Flask || Firebase || IntelliJ || Android Studio
Course Work: - Front End ([AWS](#)) || Back End ([AWS](#)) || Back End ([Google](#)) || AI/ML ([ISRO](#))

Experience

MindsNxt - Artificial Intelligence Research Assistant || 5 months ||

- Led end-to-end development of a breast cancer detection model achieving 98.78% accuracy using deep learning. Built MedGPT, a medical AI assistant to answer cancer-related queries with 85%+ response accuracy, deployed on AWS for scalable performance and real-time access.

Virtunex – App Developer Intern || 1 month ||

- Enhanced core app performance by integrating optimized Java modules, leading to a 38% improvement in response speed and a 28% boost in user interaction time. Contributed to full-cycle development, ensuring smoother UX and better backend efficiency.

Afame Technologies – Web Developer Intern || 2 months ||

- Improved website viewability and responsiveness by 15% using HTML, CSS, and JavaScript, standing out in a cohort of 120+ interns through consistent UI enhancements and collaborative development.

Workfall – Talent Acquisition Intern || 3 months ||

- Assisted in sourcing top tech talent and generated 650+ qualified leads using LinkedIn, recruitment tools, MS Excel, and strong communication strategies, contributing directly to the hiring pipeline and team success.

Projects

RekonAI (Face Recognition and Assistance) || [Code](#) || Artificial Intelligence, ML, DL || Feb'25 - Apr'25 ||

- Developed an intelligent assistant using real-time face recognition, voice interaction, and LLM integration, capable of auto-learning new faces and handling natural conversations. Built with Python, OpenCV, and Ollama for seamless performance and smart interaction.

DermAI (Skin Disease Detection) || [Code](#) || Artificial Intelligence and Deep Learning || May'25 - Jul'25 ||

- Built a Flask-based skin disease detection assistant that identifies conditions from images via IP Webcam or file upload and provides complete diagnosis and remedies. Integrated multi-language support (7+ regional languages) with React frontend for symptoms, treatments, and doctor recommendations.

EduNexa || [Code](#) || App Development || Mar'24 - Nov'24 ||

- Developed a student-centric app enabling direct communication from university heads to students, eliminating dependency on WhatsApp groups. Supports seamless sharing of notes, lessons, notifications, reports, videos, and images through a structured hierarchy.

PixelSafe (Steganography) || [Code](#) || AI, ML, Image Processing || Dec'24 – Mar'25 ||

- Developed a Python-powered steganography app to securely hide and extract images, text, and videos from media files. Built a Flask backend with LSB techniques, OpenCV for processing, and a responsive frontend (HTML/CSS/JS).

Education

GFGC, Yadgir || BCA || Sep'22 – Jun'25 || CGPA: 9.32 ||

- Focused on AI/ML, software development, and practical learning via projects and workshops.

Don Bosco PU College || Commerce || Aug'20 – Apr'22 || 90.67% ||

- Strong foundation in computer science and analytical problem-solving.
